XM Satellite Radio and WxWorx Offer a Compelling Package for
Weather Channel Marine Customers

January 4, 2007, Washington, DC – XM Satellite Radio and WxWorx have announced today that they are working with the maritime dealer network to offer a limited time program to Weather Channel Marine customers whose equipment is in the process of being phased out. The package being offered by WxWorx enables former Weather Channel Marine subscribers to receive the XM WX Satellite Weather high-resolution graphical weather data service as well as over 170 channels of the XM audio service including news, talk, sports and entertainment programming through a unique offer from XM Satellite Radio.

The \$495.00 package from WxWorx includes all of the standard elements in the WxWorx on Water Premium package (including XM antenna, receiver, software, and cables) as well as an XM Delphi Roady XT for XM audio service. Coupled with the hardware is a special offer on XM services that provide one month free subscription to the XM WX Master Mariner package and one free month subscription to XM radio audio service with no activation fee for either service. To take advantage of this program, the customer must contact a participating dealer. The dealer must return the existing WSI receiver to WxWorx as proof of program qualification. This offer provides Weather

Channel Marine customers an extremely compelling offer: advanced weather data of the XM WX service such as Satellite Mosaic Coverage, Lightning and NEXRAD, along with 170 channels of music, news, sports, talk radio, and XM original programming.

“Consumers choosing to take advantage of this offer will get the best weather and the best entertainment service available,” said Rod MacKenzie. “After three strong years in the Marine Market, XM WX and WxWorx are proven and reliable.”

The flexibility of XM WX and WxWorx allows consumers to choose from a variety of display options, so they are not confined to proprietary hardware. WxWorx software and hardware works with Maptech i3 Navigation System, Nauticomp displays, VEI displays, and most PCs, including laptops.

This program is available through April 1, 2007.

About XM WX Satellite Weather

XM WX Satellite Weather is a comprehensive graphical weather data service offered by XM Satellite Radio, the nation's #1 satellite radio service. The weather data for the XM WX service is provided by WxWorx, Inc., an innovative weather company that provides site-specific, real-time weather information. Founded in 2002 as an affiliate of Baron Services, WxWorx employs the same weather data provided by Baron Services and used by meteorologists to reach more than 235 million people nationwide daily. XM WX sets the new standard for provision of much-needed weather information to aviation, mariner, and emergency responders. The combination of detailed and comprehensive weather data, continuous satellite delivery and exceptional coverage anywhere across the continental United States and coastal waters is simply unmatched. The XM WX service is available in a choice of service tiers and is available on a wide range of hardware solutions to meet the needs of the specific market. About XM Satellite Radio

XM (NASDAQ: XMSR) is America's number one satellite radio company with more than seven million subscribers. Broadcasting live daily from studios in Washington, DC, New York City, Chicago, the Country Music Hall of Fame in Nashville, Toronto and Montreal, XM's 2006 lineup includes more than 170 digital channels of choice from coast to coast: commercial-free music, premier sports, news, talk radio, comedy, children's and entertainment programming; and the most advanced traffic and weather information. XM, the leader in satellite-delivered entertainment and data services for the automobile market through partnerships with General Motors, Honda, Hyundai, Nissan, Porsche, Subaru, Suzuki and Toyota, is available 140 different vehicle models for 2006. XM's industry-leading products are available at consumer electronics retailers nationwide. For more information about XM hardware, programming and partnerships, please visit <http://www.xmradio.com/>.

Factors that could cause actual results to differ materially from those in the forward-looking statements in this press release include demand for XM Satellite Radio's service, the Company's dependence on technology and third party vendors, its potential need for additional financing, as well as other risks described in XM Satellite Radio Holdings Inc.'s Form 10-K filed with the Securities and Exchange Commission on 3-9-06. Copies of the filing are available upon request from XM Radio's Investor Relations Department.
